

# *Butterfly Control Valves*

## Butterfly Control Valves

L&T Valves Limited, a wholly owned subsidiary of Larsen & Toubro, manufactures a wide range of globe and butterfly control valves for hydrocarbon and power industries.

The Butterfly Control Valves, suitable for both control and on-off services, are available in ASME classes 150 and 300, in sizes up to 24" (600 mm). The valves are built on the proven Triple-offset Butterfly Valves and offered in a variety of body styles and materials, with a range of actuation options and accessories to suit customer requirements.

In Triple-Offset Butterfly Valves, bidirectional bubble-tight sealing is obtained using a laminar disc-seal that generates a compressive force around the body seat. The sealing is independent of line pressure and hence bubble-tight even at low differential pressures.

### Compliance Standards

Parameter		Standard
Design		ASME B16.34, API 609 (Category B)
Pressure - Temperature Rating		ASME B16.34
Leakage Class		ANSI/ FCI 70-2
Ends	Flanged	Face-to-face End Flange Dimensions
	Wafer	Face-to-face End Flange Dimensions
		Cv Testing
Testing		Hydrotesting Fire test
Systematic Integrity (SIL)		IEC 61508

### Materials of Construction

Body/ Disc	Laminar Seal	Shaft
A 216 Gr. WCB/ WCC	UNS S31803 + Graphite/ UNS S20910 + Graphite	A 479 Type SS 410/ A 564 Type 630
A 216 Gr. LCB/ LCC		A 479 Type XM-19/ A 564 Type 630
A 217 Gr. WC6/ WC9	SS 410 + Graphite/ UNS S20910 + Graphite	A 479 Type SS 410
A 217 Gr. C5		A 479 Type SS 410/ A 479 Type XM-19
A 351 Gr. CF3/ CF8	UNS S31803 + Graphite/ UNS S20910 + Graphite	UNS N07718/ A 479 Type XM-19
A 351 Gr. CF3M/ CF8M		UNS N07718/ A 479 Type XM-19

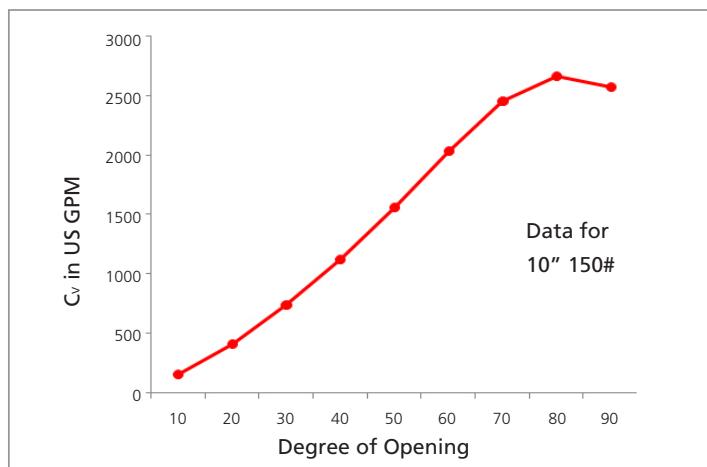

## Butterfly Control Valves

### **Applications**

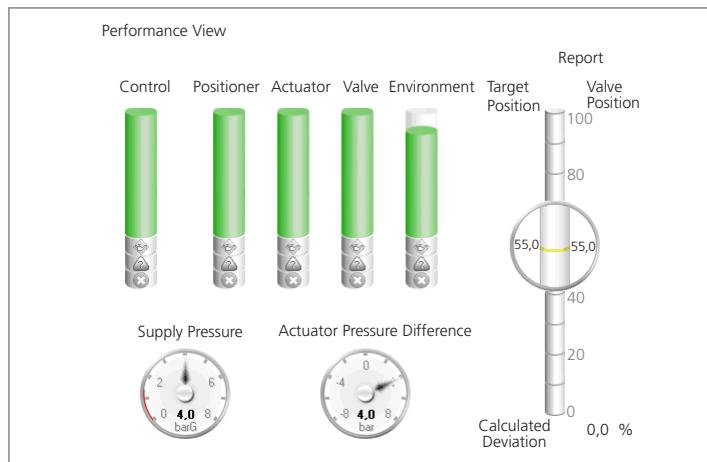

Butterfly control valves are preferred for high flow rate applications.

### **Features**

- Flow Characteristic close to linear

- Bidirectional bubble-tight sealing
- Triple-offset geometry - low wear-and-tear, low torque
- Metal-to-metal seats
- Longer service life
- Anti-blowout shaft
- Suitable for temperatures up to 538°C (1000°F)
- Meets ISO 15848-1 Class A Fugitive Emission & NACE: MR0175 requirements
- Can be offered with Valve Diagnostic Software to monitor and enhance valve/ process performance

### **Actuator Options**

- Pneumatic
- Hydraulic
- Electrical

**Coefficients Table - Class 150**

## L&T Valves

L&T Valves Limited (Formerly Audco India Limited) is a wholly owned subsidiary of Larsen & Toubro. Backed by a fifty-year track-record of excellence and world-leading innovation, the company provides engineered flow-control solutions for key sectors of the economy such as oil & gas, power, petrochemicals, chemicals, fertilizers and pharmaceuticals.

The valves are designed using state-of-the-art 3D design, simulation and analysis software. Finite Element Analysis (FEA) and Computational Fluid Dynamics (CFD) are used to fine-tune product performance. Rigorous prototype tests - both in-house and at advanced flowcontrol research establishments - ensure that the customised solutions meet customer expectations.

L&T Valves Limited is synonymous with world-class manufacturing and quality assurance systems. Our plants have the agility and flexibility to deliver a wide variety of valves against time constraints and dynamic customer demands. International safety, health and environment standards govern every phase of the manufacturing process.

L&T Valves Limited distribution network spans the globe, partnering some of the largest valve distribution companies in the world. In India, L&T Valves Limited has a presence in all major industrial centres through a network of offices, authorised stockists, automation centres and service franchisees.

Larsen & Toubro is a USD 14 billion technology, engineering, construction, manufacturing and financial services conglomerate, with global operations. Its products and systems are marketed in over 30 countries worldwide. L&T is one of the largest and most respected companies in India's private sector. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business over seven decades.
