

Coating Products Division (CPD)

	CAST BLAST COATING restores rebuilt cast iron engine parts to their original luster	
	GREEN REBAR EPOXY COATING for touch-up of rebar to extend its life cycle	
	HOT SPOT HIGH HEAT COATING withstands temperatures up to 650°C (available in Aluminum, black, grey)	
	REFLECTIVE COATING produces bright colored reflection when lit by headlights or flashlight (available in red and yellow)	
	ALUMINUM BASE COATING recommended for Seymour reflective coatings	
	SPRAY GLO COATING ultrahigh visible coating in brilliant colors (orange, red, yellow). 400% greater visibility than regular paint	
	STRIPE UPRIGHT MARKING COATING for all types of overhead industrial marking (available in fluorescent red, white, yellow, orange)	
	PBE WELD THRU PRIMER cold, smooth galvanizing compound that dries to a durable, crack resistant coating to protect iron and steel surfaces	
	GOOD GRIP COATING special plastic beads suspended in epoxy resin to provide excellent grip and improve traction on most surfaces available in black and yellow colors	

X'tralife Zero VOC - No Heat - Repair & Maintenance Products

XL-XAR
filled with aluminum oxide for abrasion & chemical resistance

XL-SS M
stainless steel filled material where final precision is required

XL-XAC
ceramic lining for excellent resistance to acids & caustics

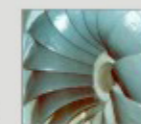

XL-XHAR
excellent abrasion resistance to fine slurries either in solid/liquid form

XL-Extrabuild
filled with ceramic beads and excellent for high build ups

XL-Ultrastick
fast curing putty for repairing leaks either in steel, aluminum or concrete

XPL Epoxy Linings

Chemical Resistance from 0.5 to 14pH and Temperature Resistance up to 160° C

XPL 1401
Concrete Sealer

XPL 2731
Severe erosion and corrosion resistant lining

XPL 3620
Secondary containment Lining

XPL 1610
Anticorrosion Linings and Primer for Steel Structures

XPL 2610
Corrosion resistance for process water tanks and pipes

XPL 1411
Anticorrosion linings for dirty water systems

XPL 4510
Novolac epoxy base lining for elevated temperatures with resistance to Sulphurous/NOx gases along with erosion resistance. Ideal for scrubbers, ductings, ESPs, etc.

XPL 2721
High abrasion resistance and flexible lining

XPL 4520
Novolac lining for conc. sulphuric and other organic acids

WR Maintenance Aerosols

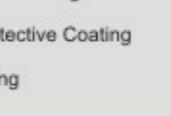

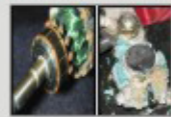

Lubrication

WR 9002
Belt gripper and lubricant
WR 9040
Multifunctional lubricant
WR 9610
Teflon Dry Spray

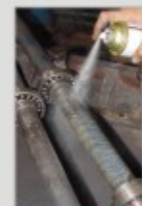

Electrical/Electronic Care

WR 1801
Electrical contact cleaner
WR 1804
Cleaner cum lubricant
WR 1800
Degreaser and Cleaner

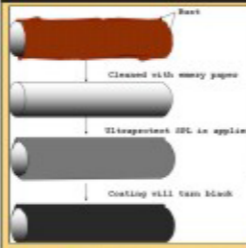

Anti-seize & Dewatering products

WR 9690
High temperature anti seize coating
WR 9600 M
Moly based anti seize coating
WR 9600 C
Copper based anti seize coating
WR 3590
Dewaterer

Ultra Coatings

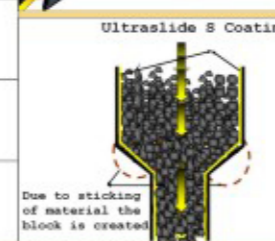

ULTRAPROTECT SPL
Uniquely engineered product to avoid rusting or corrosion of iron and metals without costly grit blasting

ULTRATHERM HT
Reduces heat transfer up to 30%. Can be applied online.

ULTRASLIDE S
Low friction coating for coal hopper/bunkers to alleviate flow distribution problems

ULTRA Z COAT (KILN SHELL COATING)
Resists high temperature chemical corrosion from alkaline gases - Sodium, Sulphur and Chlorides

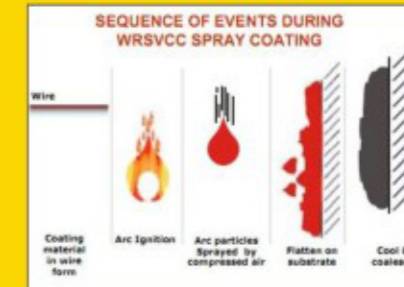

ULTRACOAT FP
Intumescent coating specially designed to provide fire protection up to 2 hours

Special Products

WR SVCC

Supersonic Velocity Continuous Combustion Spraying
Supersonic thermal spray coatings for resisting erosion, high temperature and corrosion eg. boiler tube claddings, pressure vessel claddings, BOF hood in steel plants etc

XTRA GRIP

penetrates through rust and provides an Aluminum coating for protection of steel substrates
